The department of economics and the Kautz Uible Fund is inviting applications for various fellowships and awards for the 2017-18 academic year. Please see below for the available fellowships and awards. Only economics majors (including double majors) are eligible. Please complete the attached form and return to Toshia Watkins (Office: Lindner 302, Phone 513-556-2600, email: watkinti@ucmail.uc.edu) by **Monday, March 13, 2017**. You need to complete only one form. We will consider you for all fellowships and awards that you will be eligible for.

**Scholarships, Fellowships and Awards for Undergraduate Economics Students:**

**Eligibility:** Students who major in BBA in Business Economics or BA in Economics are eligible to apply for Kautz Uible Scholarships in Economics. Double majors are eligible to apply.

**When to apply:** Applications are typically due by the first week of March. Please look for an announcement in February. Please ask your economics professor if you have any questions.

Please provide the name of one Economics faculty member who has agreed to serve as a reference

Class as of Fall 2017 semester (FR, SO, JR, SR)

Overall GPA      Economics GPA
(Economics GPA will be determined by the department)

Please provide a draft of professional/academic biography of not more than 150 words. If an award is granted this will be posted on the departmental website.
Briefly describe your interest in, aptitude at, and passion for economics. This could be illustrated by success in coursework, but also by relevant internships or work experience, conference or workshop experiences, ongoing economics discussion with faculty or other groups, etc.

Briefly describe your connections to the Economics Department. This could be illustrated by participation in the activities of the Undergraduate Economics Society, assisting faculty with research, attending departmental seminars and speakers, etc.

Briefly address how a fellowship or prize would help you complete your degree and achieve your career goals. Since one of the goals of the Kautz-Uible Fund is to provide opportunity to students who might not have sufficient resources, applicants are encouraged to illustrate how an award would help them overcome their financial concerns. Note, however, a lack of financial need will not preclude you from receiving an award.
