Financial Management of Entrepreneurship and Privately Held Firms

22-ENTR-4060-001
Spring Semester, 2017
Thurs 6:00-8:50 p.m.
Lindner 223

Objective: This course is intended to introduce the student to the unique financial concepts and best practices of start-up and existing family/privately owned businesses in today’s economy. The objective of the course is not to make students experts in all the aspects of financial management, but instead to make students knowledgeable about what needs to be done in this area and why. By understanding the integration of these concepts and practices into the private business system, the student will learn how to manage effectively the financial aspects of the firm.

Text: No text for the class. Readings for each class will be posted on Blackboard under the Assignments tab.

Approach: The class will utilize a modular design. Modules of related material will be presented by different content experts. A combination of case discussion, lecture, topical readings and in-class exercises to illustrate issues and applications may be used. A midterm exam, final exam and class participation will constitute the bases for grading. Attendance is expected, with every 2 unexcused absences resulting in the automatic reduction of one letter grade. The +/- grading system will be used in this course.

Grading: Class Participation 20%
Midterm Exam 40%
Final Exam 40%
