MAC OSX –
Mapping Student I-drive

Revised: 05/27/2014
1. From the Finder menu, click on **Go** and then select **Connect to Server**.

![Finder menu with Go and Connect to Server highlighted](image)

2. Enter in the drive path to be mapped and select **Connect**.

   **Note** – Please pay careful attention to the structure of the drive path making sure that you use **smb://** and then the full domain path for **ucfilespace**.

![Connect to Server dialog box](image)
3. Enter in your **Central Login Username (6+2)** and **Password** and select **Connect**.
