Windows 7 –
Mapping Student I-drive

Revised: 05/27/2014
1. From the Desktop menu, click on **Start** and then select **Computer**.

2. Select **Map Network Drive**.
3. Enter in the drive path to be mapped and select **Finish**.

Note – Please pay careful attention to the structure of the drive path making sure that you use `\` and then the full domain path for **ucfilespace.uc.edu**.
4. If the following window appears, enter in your **Central Login Username (6+2)** and **Password** and select **OK**. Also, check **Remember my credentials**.

![Windows Security]

5. The path should now be available.
