FROM THE DIRECTOR

Dear Friends of Lindner Honors-PLUS,

I am writing this letter with an abundance of appreciation and inspiration as the Director of Lindner Honors-PLUS. Shortly after I arrived in Cincinnati to begin my appointment as Associate Dean for Innovation and New Ventures, I was having lunch with Jeri Ricketts and learning about the heritage, innovation, and heart of the program. The honor to lead this program has been salient to me since that initial lunch with Jeri and a subsequent breakfast with Lou Lauch and Norm Baker. Those extended conversations instilled in me what this program means to the Lindner College of Business, the University of Cincinnati and the City of Cincinnati. I then had the great opportunity to meet nearly all of our current students over a series of breakfasts in the fall before I began to transition the leadership with Jeri in January and completed that transition in August. Through that collaborative handoff I have admired Jeri’s tremendous leadership and I have been thoroughly impressed by the accomplishments of our students and alumni.

Along the journey of the last six months has been an awesome international program to Europe where I had the great opportunity to meet some of the world’s most fascinating students and alumni. I was impressed by the exciting things happening around our new building (opening next fall!), across the honors programs at Lindner (we now have 3!), and my ideas for what’s next for LHP. Alumni involvement in the recruiting process extended this year into our first admitted students event during which we welcomed many of our admits and their parents to an event at Lindner Hall where they learned more about the program and met our current students and several alumni — it was awesome! Throughout my short time here, I have thoroughly enjoyed working with the LHP staff—Judy Magazine, Ashley McFarland, Mary Jo Frost, and our student workers.

Additionally, I extend my congratulations and best wishes to the graduates in both December 2017 and April 2018 as they embark into the world to start their careers, drive change, and influence the lives of others, just as they have during their time at the University of Cincinnati.

As I look towards my first full academic year as Director of LHP, I am continued to be guided by three guiding principles: 1. **Ambassadors**—LHP students, alumni, and supporters have been and continue to be amazing ambassadors of the program, the College, the University, and the City. As new students join us, I share this expectation with them and it is quite energizing for everyone involved in the program. I am inspired by the incredible ways in which our students and alumni are having a tremendous impact and look forward to fostering more and more ways for them to continue to do so.

2. Embrace the “AND”—In my role as Associate Dean for our college and as Director of LHP, I am very excited to think about new initiatives, ideas, and classes. However, one of the things that I think is most essential in my roles is to learn and appreciate, before I try to innovate, and to embrace the “and.” That means not getting drawn into deciding that it is an A or B, but to be open to the possibility what A and B can generate when combined together. This approach allows us to build things up instead of knocking them down. It is also something that sets the stage for thoughtful experimentation and collaboration.

3. Co-Creating the future of Lindner Honors-PLUS—I am very excited to co-create the future of LHP with our current students, alumni, supporters and others who are invested in the ongoing ascendance and excellence of the program. So please as you have ideas for what we can do next or things we should be thinking about for the curriculum and elsewhere, please let me know. This co-creation process is something that allows for an inclusive approach to shaping the future of the LHP Program.

I regularly think about Mr. Lindner’s quote about putting our business college on the map as one of the finest in the nation as it has been along the fence of the construction site for our new building and drives my work on a daily basis. I look forward to working with each of you to advance LHP, the College, and the University towards achieving that objective.

Thank you for all that you continue to do for our program and our students. I am honored to serve as Director of the Program and appreciate your ideas and suggestions on how we can continue to elevate the excellence of LHP. I look forward to seeing many of you at our Homecoming Event in October! It will be a wonderful opportunity to honor Jeri Ricketts for her tremendous leadership and to look to the future together in a fun new location—Great American Ball Park! I am grateful for your support of our program, the warm welcome I have received as Director, and the collaborative spirit we are co-creating.

With great appreciation,

**Dan**

Daniel A. Gruber, Ph.D.

Dr. Daniel Gruber
Executive Director
Lindner Honors-PLUS and Associate Dean of Innovation and New Ventures
The Carl H. Lindner Honors-PLUS Program is a unique and challenging leadership training. These components, along with a ten day domestic study program, a five week intensive international study abroad program, widespread business exposure, and an enhanced, six semester, paid co-operative education program, create an unparalleled undergraduate business education, which prepares students for long-term success in their careers and their lives outside of work.

What sets the Lindner Honors-PLUS Program apart?
The Lindner Honors-PLUS Program is a unique and challenging program within the Carl H. Lindner College of Business at the University of Cincinnati. This 5-year, cohort-based program incorporates a demanding business honors curriculum, an enhanced, six semester, paid co-operative education program, a ten day domestic study program, a five week intensive international study abroad program, widespread business exposure, and deliberate leadership training. These components, along with an active partnership with the Cincinnati business community, provide an unparalleled undergraduate business education, which prepares students for long-term success in their careers and their lives outside of work.

The emphasis of the program is not solely academic but also involves work ethic, integrity, good citizenship, leadership skills, and communication skills. Although students accepted to the program possess exceptional academic records, their selection is also predicated on demonstrated involvement in extracurricular activities which may include athletics, student government, and individual donors, all Lindner Honors-PLUS students receive merit scholarships sufficient to cover in-state tuition.

Lindner Honors-PLUS includes honors coursework in written and oral communication skills, interviewing skills, and business etiquette. Honors seminars also cover business ethics, the history of American business, entrepreneurship skills, and character-based leadership. Lindner Honors-PLUS students are active campus and community leaders as well. Lindner Honors-PLUS graduates are recognized for their academic preparation, their extensive work experience, their work ethic, and the exposure they have had to global business. The well-rounded education they receive has resulted in our graduates being placed in prestigious graduate programs, and finding rewarding careers upon graduation. Their balanced preparation in analytical and soft skills positions them well to pursue many divergent opportunities after their time at UC.
DOMESTIC & INTERNATIONAL TRIPS

WASHINGTON, D.C. & NEW YORK CITY

by Casmir Thornberry

The Lindner Honors-PLUS Class of 2020 stepped off our Crosswell bus at the Capitol Hill Hotel, only half a mile from the United States Capitol, grateful to have made it to the first stop of our 2017 Domestic Trip. As soon as each of us had gotten our room keys, we quickly changed then scattered towards the National Mall and through the streets of downtown D.C. The next week would be an exciting foray into properly balancing our daily company visits and strong desire to see every popular tourist destination. Regardless of seeing the Presidential Portrait Gallery or Washington Monument, the students of the Lindner Honors-PLUS Class of 2020 received valuable insight and education through the variety of in-depth visits we made to many companies small and large. And while every company was memorable, a few truly stood out.

It began during our visit to The Majority Group with Rob Ellsworth. Majority Group is a government relations consulting firm, based in Washington D.C. Their team of experienced professionals are “steeped in the confluence of business demands, government processes, and evolving political climates.” Rob discussed a variety of topics that were both inspiring and enlightening. From his first foray into politics to his position on the new administration, he touched on issues directly related to the intersection of business and politics. Rob proved to many in our class that lobbying isn’t necessarily the evil that it is made out to be. And that while much in politics and in D.C. needs to be reformed, lobbyists can be one aspect of D.C. culture that gets something done.

The next day we visited Deloitte’s Government Relations office where we met Suzy Samet and Patrick Givens. It was clear during this visit that Deloitte’s priorities were that of many large accounting firms: decrease regulation for themselves and promote legislation that limits their competition. By the end of our time in the nation’s capital, this had become a common theme. Many of the companies we visited in those few days had a specific and carefully planned agenda, carried out by offices full of lobbyists and government relations teams, in order to influence lawmakers and the rest of the endless bureaucracy. These people were slow and deliberate in their actions. It was this observation that created such a stark difference for us when we arrived in New York City.

Despite the boiling hot subway rides and the terrifying costumed characters at Times Square, the class was in immediate awe at the opportunity and progress so present in nearly every aspect of the city. The quintessential example of those qualities was on display when we visited J.P. Morgan. This last visit, if not anything else, gave a clear image of the priorities of the company. As we sat in the former Bear Stearns building, I couldn’t help but smile to myself. I was remarkably grateful for the opportunity to listen to such a powerful female executive and was inspired by her story. Sitting in the room, it was as though the events of nearly a decade ago never took place. The city that never sleeps is home to companies that never stop in their pursuit of progress.

In the end, we were thankful for the experience and opportunities the Domestic Trip had given us. Each one of our company visits in New York and D.C. were fascinating and enlightening. Each gave us a new perspective on their industry as a whole and appropriately complemented the extensive lessons we’ve learned as students in the Lindner Honors-PLUS program.
INTERNATIONAL TRIP

Toulouse, France, was the second stop of our International Trip, and the experience I had there was one of the most impactful parts of the program for me. While in Toulouse, we took courses at Toulouse Business School, a business school where students from around the world come to pursue a business education in English. We all took week-long elective courses on topics ranging from Airline Marketing to App Development to Global Finance and were divided into classes based on the many different places. In the afternoons, we went on company visits to Airbus and Pierre Fabre and were able to learn about the process of building the planes as well as selling them, which offered insight into the operations of a large corporation. At Pierre Fabre, we were able to get an up close look at product assembly lines, which brought the team to life what we had learned earlier in the semester during our Operations Management course. Overall, I very much enjoyed our time in Toulouse, and it encouraged me to continue to seek out opportunities where I will meet people who have had different life experiences and to place an emphasis on the positive societal impact that companies should have as I look toward my future as a business professional.

Barcelona

When the 1992 Olympic Games were hosted in Barcelona, the city was at the beginning of a revival that made it one of the most attractive places to visit in Europe. Not only does it have a beautiful Mediterranean climate; it also boasts world-class museums, parks, restaurants, sports teams, hotels, and the list goes on and on. For me, one of the parts of Barcelona that was most exciting was the architecture. Barcelona’s star architect is Antoni Gaudí, designer of La Sagrada Familia, a colorful cathedral and an unfinished masterpiece of Modernist architecture. A couple of my classmates and I visited the church on one of our free mornings, and the building lives up to the hype. For such a large and ornate structure, definitely rivaling the size of the great Gothic cathedrals of other European cities, La Sagrada Familia is bright and colorful inside with soaring ceilings and impossibly narrow columns carved to resemble trees. But Gaudi is not the only notable architect of the city. Just walking through the streets, looking up you can see bold modern architecture blending into medieval ornamental structures, something that could never be matched in the United States. Another memorable part of Barcelona was the food. I can’t claim to be a culinary expert in any way, since my cooking ability stops at being able to make a BLT sandwich, but I felt like a pro foodie in Barcelona that was most exciting was the food. I can’t claim to be a culinary expert in any way, since my cooking ability stops at being able to make a BLT sandwich, but I felt like a pro foodie in Barcelona.

London

Appareantly, it doesn’t snow in London. But when you pluck twenty-five bright-eyed and eager kids straight out of cold, wet Cincinnati amid a bleak, snowy winter and drop them into the largest snow storm London has seen for decades, watch them not know the difference and not slow down for a second. Colloquially the “Beast from the East,” the storm followed us across the Atlantic and descended as we did on the U.K. The streets were covered in snow and our footprints as we explored the first city on our very own Tour de Europe, tromping upwards of fourteen miles on day one. While some tried to pack light and were upwards of fourteen miles on day one. While some tried to pack light and were

was definitive in the running for most fun was had with friends, old and new, while many an early morning made us digest and discern the customs of international business.

Between Credit Suisse, Bloomberg, Dunnhumby, and Unilever, we were fortunate enough to meet and learn from chief executive officers, chief financial officers, vice presidents, directors, and leaders all the like, and the rarity of the opportunities was never lost on us. We were inspired by Paul Polman’s dedication to the earth and Lenna Nair’s dedication to people. We left Bloomberg with new hard skills after a demo of their terminal. We were taken out of our comfort zones by David Mathers and we were educated on GDPR and its implications by Jason Nathan and Robert Machin.

Overall, London was one of the most thought-provoking and diverse destinations of the trip, people-wise, culture-wise, and company-wise. Plus, it was definitely in the running for most fun despite the snow and, depending on the time of night, because of it.

by Anna Armao
appetizers. The tapas options were mainly seafood-focused, with delicious options ranging from fresh crab to bruschetta. Another night, Chandler, Hannah, Anna, and I went to a paella restaurant that we found on Yelp to be the best paella place in Barcelona. Paella is another well-known Spanish dish that is rice-based and (of course) often incorporates fresh seafood like shrimp, clams, and squid. This restaurant was a little off the beaten path, in a neighborhood that was more locals than tourists, but was well worth the walk. The tiny restaurant served big portions of their famous dish with extremely fresh ingredients. Extremely fresh!—meaning that you have to look the cooked shrimp in the eyes and crack open your own clams—but if you can stomach that, the ingredients. ‘Extremely fresh’—meaning the family business was founded decades ago. The wine cellars were so vast that they don’t let people walk through them, instead having amusement park-style trolleys to shuttle groups through the underground cellars. And while the sparkling wine was great, I loved the fact that it was a family company that has managed to remain local and family oriented, staying in business through major 20th century challenges like the Spanish Civil War.

To me, Barcelona was one of my favorite places we visited and a nice break from the cold weather of London or Latvia in March. Since the beginning of freshman year, I’ve been thinking about the International trip. I have dreamt about the picturesque cities, the new people I would meet, and the incredible memories I would make with my classmates. I had always pictured cities like London and Barcelona... never Riga, Latvia. When Jen told us that we would be traveling to London, Toulouse, Barcelona, Milan, Riga, then Geneva, no one was excited about Riga. If you would like someone in my class who we were looking forward to the most, not one person would have Riga. But, after spending just a couple days in the city, my perception was altered dramatically.

When we arrived in Latvia, the air was crisp and cold and our moods were a little dreary, but it was time for our walking tour. While we weren’t looking forward to it, the walking tour was actually very informative. We learned about the history of Riga and the rigorous battle between the Latvians and the Russians for control of the land. Our tour guide described the perseverance and determination the Latvian people displayed when fighting for their independence. I was very touched by the struggle between Russia and the United States to assert influence in Latvia. Drinking deeper into Riga’s business culture was astounding due to how vastly different it is from the United States. But, the reason I found it so exhilarating to learn about Riga was because it is different from the norms I am used to.

Another highlight of Riga was getting to spend time with Matt Menthinskis, a graduate of Lindner Honors-PLUS. We had the opportunity to ask questions about his transition to living in Riga and hear about his career as a speculator. He has an incredibly interesting life. He also encouraged us to follow our dreams and do what we truly want to do, no matter where that path may take us.

The best part of Riga was how close our class became. There were no tourist attractions that we were dead-set on seeing and it was fairly cold the entire time we were there, so we had a lot of time to seek out hole-in-the-wall places and just hang out. We bonded on another level in Riga because of the late nights we spent talking and rekindling our friendships formed during freshman year. A few of us went bobsledding in a town called Sigulda, which was another unforgettable bonding moment. Our whole class also got to travel to Yurmula, a beach town in Latvia. We walked along the frozen sand and water and laughed along the way as well stumbled through the ice. Riga is so unforgettable because it is a reclusive place that not many people have the opportunity to visit. We fully embraced it and had some of the best days of our lives. After reflecting on the trip, I can confidently say that Riga was one of my favorite experiences.

While sitting at the laundromat in Milan near our hotel, listening to the quiet whir of the washing machines across from me, and observing an intense game of chess ensuing between two men, one younger and one older, I began to reflect on all that I had experienced over the course of the last few weeks in Europe. I had decided early on that a local laundromat of each city was going to be my place of solitude. For necessities sake, I had to be there in just about each city anyway, as I had just one small suitcase of clothes to get me through what would be an 8-week trip traversing the continent of Europe; therefore, it came to be the perfect place for the type of quiet anonymity one would want for such a thing as reflection.

And, at this point, there was much to reflect on. Our trip was coming to its tail end. Milan being our second to last stop on this world tour, and it had been a whirlwind of a trip—from the “highs” of visiting top executives of multinational companies in London, to the “lows” of losing my iPhone and debit card in Barcelona—it was safe to say I had experienced a full range of emotions, lessons learned, and new ways of adapting to a range of situations in foreign places, both personally and professionally.

Milan was a city of no exception. As in every city we had visited, we hit the ground running the first day we got there. We often primed our visits to each city with an initial walking tour, and Milan’s walking tour was by far my favorite. On this walk, we visited the infamous and ornate Milan Cathedral, walked through one of the oldest upscale shopping malls in the world, the Galleria Vittorio Emanuele II, and had the chance to try the bitter red local liquor, Campari. Milan is the center of the high-end fashion world. In fact, Milan Fashion week had just taken place a mere week before we were there.
It came as no surprise to me, then, that our company visits were centered around the fashion industry: more specifically, the world of designer eyewear. On our second day there, we went to the headquarters of the largest sunglass design and manufacturing company in the world, Luxottica. Luxottica is known for designing eyewear frames for brands like Ray-Ban, Chanel, Prada, Burberry, Persol, Tory Burch, and sportswear brand, Oakley, which was the topic of my own ability and privilege to experience all of these visits.

As I sat at this laundromat reflecting on our company visits, I was equal parts grateful to witness this small moment of joy in contrast to reflect on the richness of this foreign city’s history, culture, and influence on the rest of the world, in both art, fashion, and commerce. It was a deeply informative presentation, and my own ability and privilege to experience it all, I heard a winner’s cheer from the young man next to me playing chess against the older man. I witnessed them shake hands and speak warmly to each other in their expressive and rolling language. They definitely said something like, “This time next week?” And in that moment, I was equal parts grateful to witness this small moment of joy in contrast to reflect on the vastness and reach this city has on the rest of the world— and melancholy for our group in Geneva made for an incredible end to the official portion of our adventure. We said goodbye to our fearless leaders, Dan & Jeri, and went our separate ways for the remaining days of our trip.

GENEVA by Claire Suetholz

Geneva, Switzerland was the last stop on the LHP European adventure and it certainly did not disappoint. We kicked off the week by visiting the Nestlé headquarters in Vevey, Switzerland. After Nestlé, we hopped back on the bus and headed to Zurich, where we met LHP alumni Jack and Sarah Habig. Jack and Sarah planned out a wonderful afternoon for us which included dinner at a traditional Swiss restaurant.

On Tuesday morning, we headed to the Proctor and Gamble European headquarters. We met with employees in the IT function of P&G and got to hear from LHP grad Amy Steinmetz of LPK later in the day. Amy presented an interactive overview of her job in branding and hosted us for a lovely happy hour in downtown Geneva with her colleagues. On Wednesday, we spent our free day skiing in Chamonix, France with a group of classmates. We were wildly unprepared, but I look back on this adventure as my very favorite memory of the trip.

EXTRA 10 DAYS by Kevin Thomas

For my post-trip 10 days, I had the opportunity to spend time with 20 of my 24 LHP peers! Right after the program ended in Geneva, Switzerland, I traveled to Cinque Terre, Italy with Anna, Alex, Chandler, and Hannah. We stayed in the town of La Spezia and made day trips to see different parts of the Cinque Terre region. We had originally set out to hike between all five villages, however, due to recent weather events, the trails were closed during our time there. Instead, we used the hiking trails inland to hike above the town of Riomaggiore. The view from the top of the mountain was breathtaking. We could see for miles up and down the Italian coast. The shoreline was very different from what we traditionally see in the US. There were small patches of beach, however, most of the coast was large rock cliffs. Additionally, we explored the Island. The public transportation system in Rome was robust, which was good considering how big Rome is. One of the reasons Rome is so spread out is due to the ruins that occupy a large portion of the city. It was unique to be walking down the street and see structures that are hundreds of years old. On our first night in Rome, Alex, Chandler, and I met up with RJ and RJ for dinner. RJ then gave us all a walking tour of Rome due to his extensive knowledge of Roman history. On our second day in Rome, Alex, Chandler, RJ, and I waited a couple hours in line to tour St. Peter’s Basilica in Vatican City. Over the next two days, Alex and Chandler departed Rome. I spent a good portion of time walking around Rome and seeing as many landmarks as possible. On Saturday morning, I flew from Rome to Ibiza to meet up with a group of 13 people that had been in Amsterdam and Nice, France.

The 14 of us rented a villa in the hills of Ibiza. Since we were visiting in early April, it was not peak tourist season yet on the island. The villa was secluded which made for a nice relaxing few days. Due to the location of the villa, the views were spectacular and allowed us to watch the sun set over the coastline from the pool. We were within walking distance of the beach so we spent some time playing soccer in the sand and enjoying the nice weather. It turned out to be an amazing few days with a great group of friends.

After three days in Ibiza, I flew back to London where I met up with Anna and Cassidy for one more night before we flew back to the States!
“I stand before you today on the cusp of the most important decisions of my life: what to do, how to do it, and whether to do it at all.” — Brian Tracy

And then there is the most dangerous risk of all—the risk of spending your life not doing what you want on the bet you can buy yourself the freedom to do it later.” — Randy Komisar. I will never forget the night before the trip started, my mom sent me this quote and a message that read, “this is a once in a lifetime trip – make the most of it.” As I sit here and reflect on our 7 weeks adventure, I am elated to report that this trip was a remarkable experience filled with new cultures, closer friendships and expanded insight into global business.

The numerous company visits to sites like Unilever, Credit Suisse and Givaudan gave our class perspective on all the global business world has to offer! We learned not only in the classroom, but also through new experiences. In every city we had the opportunity to go on walking tours which made us comfortable with our new surroundings and were a great way to see the major historical sites.

The most interesting part of the trip was observing the major differences between American culture and European culture. These cultural differences are not just based off of cuisine, education or professional behavior, but more the actual values of society. One of the more fascinating differences between America and Europe is the European collective society versus the American individualistic society. This major distinction was relevant in almost every company visit. As a class, we noticed European companies were more likely to engage in corporate responsibility whether that be in their communities or internally regarding their own employees.

Overall, this trip has made me want to take the leap of faith that is living in a new city, state or country. I no longer will look at pictures of cities I’ve never been to and think that is enough. I want to see and touch those places with my own eyes and hands. Traveling truly does give you a global perspective and helps you to understand why other people and countries act the way they do. I am so excited for the rest of my career and life to be able to travel to amazing places and grow in my understanding of the world. Our class will forever be grateful to LHP for fostering this sense of curiosity within us and giving us the infamous “travel bug.”
I had a non-traditional path to Honors-PLUS, entering the program as a transfer student. At the end of winter quarter freshman year, I was encouraged to apply by LaVandez Jones (LHP ’08) and this marked the beginning of a life journey and career that I did not know was possible! Honors PLUS sparked an incurable desire to see the world, provided a fundamental understanding of business, and inspired a passion for leadership and impact!

I decided to leave Nielsen and join Google as a strategist in the Sales division, consulting small and medium businesses (SMBs) on how to grow their businesses utilizing AdWords. I remained in that role for two years, leading a rotation across the Mountain View and Ann Arbor offices as well as trained new hires. Next, I joined product marketing where I leveraged our incentives program for SMBs, driving a significant increase of new account activations and ultimately receiving a platinum award given by the SVP of Marketing, Lorraine Twohill.

I knew that I wanted to stay in the tech industry long term but identified gaps in my understanding of finance and venture capital, so I decided to go to business school. Harvard Business School, and specifically the socratic method, was such a valuable experience. It taught me how different people think based on their life experiences, industry expertise, functional expertise, and passions. During the summer between my first and second year at HBS, I joined Apple as product manager and learned a ton about online retail, creating great customer experiences, and what it means to have an emphasis on design. I returned full time in a new role leading growth for SMB, working on strategy, marketing, product, and merchandising.

My career has recently led me to Facebook, another leader in the SMB segment, where I lead product marketing for multiple product teams. I continue to be passionate about building for the SMB segment because it feels like I’m actually building for multiple, evolving micro-segments with limited common attributes of finite time and minimal budget. It continues to be one of the most challenging customer segments!

Each year, we highlight a Lindner Honors-PLUS alumni in the annual report. This year’s spotlight was the 2017 winner of the Lindner Honors-PLUS Norman Baker Outstanding Alumni Award, Kyle Quinn. While at UC, Kyle was highly engaged in campus affairs. As a freshman, Kyle was appointed to a two-year term by then Ohio Governor, Ted Strickland, to UC’s Board of Trustees as undergraduate representative. Kyle was also a member of the Pi Kappa Alpha Fraternity, where he served as Chapter President in 2011 and was named the Fraternity’s most outstanding undergraduate in the country upon his graduation. His campus involvement ultimately led to his selection to several UC honorary organizations, including Sigma Sigma, Men of METRO, Cincinnatus, Order of Omega and Omicron Delta Kappa.

In 2016, Kyle was selected for the prestigious David L. Boren fellowship and studied business and Portuguese for a full academic year in São Paulo, Brazil. While in Brazil, Kyle met his future wife, Isabel, whom he soon married after returning to the US from his time abroad. Together, they embarked on a new life together in the United States after finishing their degrees, which ultimately led them to call São Paulo, Chicago, Atlanta and now Cincinnati “home” over the course of the last five years.

Kyle graduated with an Accounting degree from UC in 2013 and was a recipient of the Presidential Leadership Medal of Excellence, which is awarded annually to the top graduates of the University. Following his undergraduate degree, Kyle completed his Masters of Tax degree at UC and was named most outstanding graduate of the program in 2015.
Kyle is a Certified Public Accountant in Illinois and Ohio and is a Manager in the Mergers & Acquisitions Tax practice of the Cincinnati office of Ernst & Young LLP. Kyle recently moved back to Cincinnati and we had a chance to catch up with him and ask a few questions about what he's been up to!

**What brought you back to Cincinnati?**

After I graduated from UC in 2013, I joined PwC as a Tax Associate in Chicago. I was working long hours and completing my Masters and the CPA all at the same time. I was also trying to figure out what the next steps were for me. In between all of that, I was a study abroad student in Brazil. We ultimately decided that long term career prospects for the both of us were better in the US and so, Isabel went back to law school at Notre Dame so that she could practice law in the US as well. We spent many long evenings with the coffee pot brewing and were buried in textbooks and the code and regulations at our little condo in the Chicago suburbs. We thought it only made sense that we give back to the program in that way…by founding the first ever LHP intern trip to South America.

**What inspired you to give back to LHP in that way?**

So many LHP alumni give back to the program in so many ways. When I reflected on my collegiate experience and gave some thought to the unique experiences I had as a LHP student, I continually thought of my experience in Brazil and how LHP supported me for a year of study there, which ultimately led me to find my wife. Given that fact and the substantial amount of connections we have there, we thought it only made sense that we give back to the program in that way…by founding the first ever LHP international trip to South America. After we convinced them that Latin America was the perfect place to hold the next international trip, we worked with them for over a year to plan the program which ultimately led to the students studying in Argentina, Brazil and Chile.

Kyle rented the development of the Brazilian portion of the trip, leveraging our networks to plan company visits and cultural activities in both Rio de Janeiro and Sao Paulo. It was incredibly rewarding to help plan such a formative experience for that LHP class and certainly shed light on how much work it must have been for the LHP staff to plan these types of experiences year after year in regions around the world. We were so happy that the students got so much out of the experience and we can only hope that we’ll have the opportunity to help lead another trip to South America for LHP in the future!
ELIZABETH DINEVSKI  
CLASS OF 2018

Looking back, I would like to thank 17-year old me for choosing to go to the University of Cincinnati and for working hard to get into the Honors-PLUS program. My academic, student involvement, and professional experiences have truly shaped me to be the best version of myself.

Like many other bright-eyed bushy tailed freshmen, I started off as International Business and Finance, thinking it would be a great blend of technical capabilities with my love of other cultures. After diving into some of my classes and talking with the LHP office, I realized I wanted to pursue a more quantitative path with business. I decided to drop my International Business major since I had the international trip and picked up minors in Business Analytics and Mathematics. My favorite—and most challenging classes—were those in math and analytics, but they were also the most rewarding. I really enjoyed blending my love for big data, analytical thinking, and business.

In terms of student experience, I decided to join Kappa Alpha Theta, Lindner Ambassadors, and Student Government as a way to meet other students as well as give back to UC. Throughout my five years, I served in various positions in these organizations, from scholarship committees to Vice President of Membership. It was such an honor to be a part of many organizations that have impacted UC some as long as 100+ years!

While I enjoyed contributing to student life at UC, I knew I wanted to get more involved in my community. I missed playing sports in high school and had a desire to mentor others, which is why I decided to pursue coaching. I absolutely loved coaching because it reconnected me with the community I grew up in and I was able to empower young women to meet their full potential beyond just sports.

After my sophomore year, I was approached by Professor Burrell and was asked to be a teaching assistant for his undergraduate Business Law class along with his MBA level Corporate Social Responsibility class. I ended up staying in that position for 8 semesters and loved bringing part of my fellow students’ learning Spring semester of my senior year, I was offered a position as a teaching assistant for Decision Models with Dr. Sox where I was able to practice my analytics skills while helping others develop theirs.

At UC, academics is only half of the education; the other half is professional experience. My first three co-ops were with Fifth Third Bank in various roles where I was able to experience various sides of banking. During my time, I learned about how banks work, various career paths that one can take in the financial industry, and (most importantly) that I was not a banker. From there, I spent my remaining co-ops with the City of Cincinnati in the Office of Performance and Data Analytics.

In this role, I worked in a small, start-up like office where I aided with performance management of the various departments, open data initiatives, and learn process improvement events. I absolutely loved my time with the City of Cincinnati. I was given substantial responsibility and was able to make a difference in my community. Due to my love for government, I decided to apply to an LHP-sponsored fellowship with the Center of the Study of the Presidency and Congress. Through this fellowship, I conducted research for the think tank on the opioid epidemic.

“Life is what happens to you while you’re busy making other plans.” This quote is not only one of my favorites, but often describes me. During undergrad, I planned on going straight into a graduate school for Business Analytics because I knew it would open up opportunities for me in data science. Before my senior year, I applied to an internship with IBM, but was instead interviewed for a full-time decision. I received and accepted an offer with IBM in their Consulting by Degrees program in Chicago before the school year began—something I definitely was not planning! While I do not know what lies ahead for me, I’m prepared knowing that I will always have the LHP support system.

When I graduated high school, I had a solid plan for the next five years of my life. Looking back, I can say nothing went as planned. It ended up far better than I could have imagined. I went between two schools and originally accepted another college. Four weeks before the beginning of school, I realized the mistake I made and called UC immediately. I remember the Lindner Honors-PLUS office saying, “You never left the family, you just took a vacation!” I have held that memory so dear to my heart and cannot thank my LHP family enough for having faith in my abilities.

Throughout my time, I was given the chance to not only excel academically but personally and professionally as well. I am so thankful to have had such an enriching academic experience complimented with business excursions, an incredible study abroad to South America, and an opportunity to learn from the brightest professors. It’s not every day that you get to serve as a consultant, meet the CEO of Google Brazil, or look forward to Bars! Professionally, I received amazing exposure and the opportunity to develop myself tremendously.

One of my favorite memories continues to be the time I spent with Delta Air Lines in Atlanta, GA. I had the chance to work with a brilliant team, study complex operations, and see the world! My experiences allowed me to step outside my comfort zone, lead with excitement, and understand the world is more than ready to welcome me with open arms.

My department was full of fun and excitement. Refreshing international menus, being the first airline to launch Starbucks Coffee, redesigning the Business Class experience were just a few of the things that brought thrill to the office. Coming into my role, I expected to be “just a co-op”, but instead I was introduced to an outstanding amount of opportunities, responsibilities, and excitement. I did not realize that I would be taking on a role that requires me to be a point of contact for multiple initiatives, manage the Special Meal Program, and support food logistics for over 5,400 flights a day. Within my first three weeks, I was on a plane headed to London for a business trip to meet with suppliers and discuss performance within the European market. I made my way over to Chicago, Dallas, Washington D.C., Minneapolis, Seattle, and New York to devise recommendations for enhancing the communication between headquarters and operations.

My position pushed me beyond limits and made me realize the importance of taking risks and always moving forward. The best part? I was supporting the team that originally inspired my childhood dream of wanting to be a flight attendant, wanting to be a pilot, wanting to be a part of the team that helps others go above and beyond, literally.

Fortunately, this dream never left me. I became a reality when I received the incredible opportunity to join Delta Private Jets as a Safety, Security, and Compliance Specialist in the Cincinnati area. As I work on developing security protocols, assessing operational risks, and enhancing the safety for each passenger we serve, I keep every individual in mind and strive to provide support through the smallest of details. A flight from Seattle to Nantucket could be the reason someone receives a chance to visit home after 5 years. A flight from Cincinnati to Paris allows a student to embark on their first study abroad adventure and create unforgettable memories. Or even a flight from Atlanta to London could reunite a woman and her niece after 18 years—it did for me. Delta is responsible for so many life changing experiences daily, and it’s unbelievable to finally be a part of the team that makes these incredible moments happen.

The sense of fulfillment I receive, the excitement that my role brings, and the memories I cherish from over 18 different countries goes back to that phone call I made in the summer of 2013. The five years of opportunities I was presented, and the endless amount of encouragement I received. I’m so thankful I never left the Lindner Honors-PLUS family.
KATIE CHUNG
CLASS OF 2019

As I enter my fifth year at UC, it seems just like yesterday I told Jeri Ricketts during my LHP interview that I wanted to leave my footprints on this campus. I wish at the time I was clever enough to have said (Bearcat) paw prints instead! Since then, UC and Cincinnati have become my home while my friends have become my family. The support I’ve received through LHP from major changes to career shifts has never wavered. I chose Cincinnati for the co-op program, but I will be leaving with so much more.

Last year, Jeri announced LHP would support a local philanthropy, Adopt A Class. Each LHP family would pair up with a teacher from a Cincinnati Public School for monthly visits with a focus on educational activities, occasional pen-palling and an annual field trip to celebrate the mentorship. At the time, I had the slightest idea of the impact I would have on this organization.

Two of my co-op rotations were spent at LPK—exploring the realm of branding and falling in love with an innovative culture. Each semester, the interns take on an entire project to rebrand a local nonprofit. It’s a really cool experience to collaborate among all the interns’ skill sets and produce a cohesive brand, an opportunity that these organizations wouldn’t have otherwise. Last summer, our Intern Project was a total rebrand for Adopt A Class! As an Adopter, I was able to connect to their purpose on a visceral level and effectively lead my team to create a brand that encapsulated how they brought education to life. As I came back to campus, the new brand launch truly inspired me to become more engaged as an Adopter. Little did I know as the LHP PACE Leader, our Project Impact assignment would be Adopt A Class! Besides the unique opportunity to mentor 25 freshmen on their beginning steps into college, PACE Leaders guide the students through exploring non-profit organizations. Students utilize their newly-acquired business skills to help an organization achieve its goals and simultaneously improve the Cincinnati community. With the momentum for LPK’s rebrand, Adopt A Class wanted us to brainstorm PR communication and outreach ideas to engage more businesses to spark curiosity and imagination in a student’s life.

Knowing we could give back so much more, an additional focus Jeri and I set was to create a solid foundation between our 10 LHP families and Adopt A Class classrooms through increased participation in monthly classroom visits and our first ever UC Field Trip. The freshmen planned two field trip days in April; we had seven classrooms participate, nearly 200 kids, who got the opportunity to see their mentors’ home and aspire to become a Bearcat one day. I was so proud of my students as they planned and executed all the details from getting the kids to campus, making sure they were happily fed to creating fun activities like a mini-ROAR tour with hotspot destinations on a passport and Bearcat Bingo.

After all of our hard work, the University of Cincinnati won the Adopter of the Year award! With 16 total teams through the university, we truly brought Adopt A Class’s vision to life: Empower all Cincinnati students to unleash their full potential and ignite their dreams through a breadth of life experiences and career opportunities.

It started back in the summer of 2016. It was late July and I had already declined 2 co-ops for the upcoming fall. My main goal for the upcoming co-op was to be placed out of town since all my previous ones had been in Cincinnati and also work in a project-oriented environment that would give me a healthy amount of responsibility but also freedom. As summer was slowly coming to a close, I met with my co-op advisor because he notified me about a possible co-op that was consistent with my interests. Upon meeting with him he told me that BMW’s only manufacturing plant in North America located in Spartanburg/Greenville, South Carolina was looking for a last-minute co-op to fill in their Body Shop Logistics Department. I researched, applied, interviewed and accepted; 3 co-ops later it is one of the best decisions I made in college.

During my first rotation there, everything felt so surreal to me. My first couple weeks I kept saying to myself, “Wow I’m actually at BMW, and not just a little dealership.” Plus, it was always sweet telling everyone where I was working. Plant Spartanburg was responsible for being the only plant in the world that produced the X5 (soon to share some models). It was BMW’s largest plant by production capacity, so it was a tense environment. Throughout my time there I was gaining the ropes. I got introduced to SAP, the backbone of every process that BMW had at that plant. I learned the logistics processes and procedures of getting parts to the line consistent to the safety and quality measures the body shop followed. Everyone welcomed me immediately, so it was extremely easy to ask questions on my assignments and projects. To my surprise, I gained my managers’ trust quickly when they assigned me a staging project.

Two others and I were responsible for modifying the layout of the Body Shop in order to hold more on the line (doors, hoods, liftgates, etc.) in the shop for daily production. It was amazing to have so much influence that had such a large impact to the entire shop. There was also another project I led that resulted in a $1.6M contract. Everything I worked on was a great step in the right direction for my professional career.

For my second rotation in summer 2017, I focused on building my network and developing confidence in my work ability. The environment at BMW allowed me to grow tremendously internally. I know where I stood professionally when it came to being on a team, communicating, taking lead, and asking the right questions. It developed just in time for my 3rd rotation during which I felt more like an actual BMW employee rather than a co-op.

I could write 10 pages about everything I worked on and lead in the spring of 2018. It was challenging and rewarding because BMW had just built a brand new body shop and launched two new models and on the brink of building two more. My very first week back, I had already received four projects that I was leading. They ranged from in-house inventory visualizations to new vehicle builds, but also freedom. As summer was slowly coming to a close, I met with my co-op advisor because he notified me about a possible co-op that was consistent with my interests. ## Classes of 2018–2022

### Stephanie L. Adamiec

**Sycamore High School; Cincinnati, Ohio**  
**Major:** Industrial Management, Information Systems  
**Co-Op:** Circuit Corporation  
**Activities & Honors:** UC Mock Trial Competition Team—President, Team Captain; Executive Board Member, Secretary (past); UC Panhellenic Council—Vice President of Recruitment, Judicial Board Member (past); Logistics Recruitment Director (past); Kappa Alpha Theta Fraternity—Diversity and Inclusion Chair, Member Development Committee, Bylaws Committee (past), Nomination Committee (past); Mental Health Chairperson (past); Facility Management Director (past); UC Student Government's Student Court—Founder, Rho Lambda Honorary—Membership Director; UC Administrative Review Committee, Lindner Ambassadors; Mortar Board Honor Society, Bearcat Buddies; UC: Unified for Uganda—President (past), Founder, Sycamore High School Mock Trial—Coach (past); Awards—Case Western Reserve Mock Trial Invitational Outstanding Attorney and Witness Award, Xavier Mock Trial Invitational Outstanding Attorney Award, Kappa Alpha Theta Kite Award (Outstanding Freshman), Julia Wright Merritt Award (Outstanding Junior for Service to Theta), Martha Vardenborg Coons Award (Outstanding Senior for Campus Involvement)

### Eric Bachus

**LaSalle High School; Cincinnati, Ohio**  
**Major:** Finance, Marketing  
**Co-Op:** Johnson Investment Counsel; Great American Insurance Group  
**Activities & Honors:** Sigma Alpha Epsilon Fraternity—External Vice President; Province Tri-Beta Council, Interfraternity Council—Treasurer; Student Alumni Council; Colleges Against Cancer—Relay for Life—Student Organization Representative; Lindner Student Action Team, New Member Director (past), Cats on Deck (past); Interfraternal Recruitment Team (past); Future Greek Leaders (past); Wesley Chapel Mission Center Volunteer; Bayley Place Nursing Home Volunteer; University of Cincinnati Alumni Association Legacy Scholarship Recipient; Sigma Alpha Epsilon True Gentleman Scholarship Recipient

### Megan T. Beischel

**Notre Dame Academy; Park Hills, Kentucky**  
**Major:** Marketing and International Business  
**Co-Op:** Kroger, Bayer Becker, Curiosity Advertising  
**Activities & Honors:** Cincinnatus Scholar; University Honors Program; Notre Dame Urban Education Center Tutor; ROAR Guide; National Panhellenic Conference—Vice President of Philanthropy (past); Kappa Kappa Gamma Sorority—Public Relations Chairman (past)

### Kirsten N. Brenner

**Reading High School; Cincinnati, Ohio**  
**Major:** Marketing, Business Analytics, Information Systems  
**Co-Op:** Siemens PLM Software, Paycor  
**Activities & Honors:** Unified for Uganda—Member, Director of Membership (past); Delta Sigma Pi Professional Fraternity—Member, Vice President of Finance, Corporate Sponsorship Committee Lead, Corporate Sponsorship Committee Member (past); Relay for Life Committee Member (past); Vice President of Membership (past); Junior Achievement—Volunteer Educator; CYO Youth Volleyball—Head Coach; University Honors Program; Cincinnatus Scholar; Dean’s List

### Brian A. Butz

**Moeller High School; Cincinnati, Ohio**  
**Major:** Accounting, Information Systems  
**Co-Op:** PricewaterhouseCoopers  
**Activities & Honors:** Student Government—College of Business Tribunal Senator, Academic Affairs Committee Member; Lindner Student Action Team—Co-Director of Impact UC; Lindner Ambassadors—Vice President of Technology (past); First Year Leadership Program - Mentor, Director of Technology Intern (past); UC Invents—Leadership Team (past); Sigma Phi Epsilon Fraternity—Vice President of Finance, Recruitment Selection Team (past); Finance Committee (past); Bearcat Buddies—Tutor (past); Accounting for Kids—Tutor; Transforming Lives Club—Co-founder
MARISA A. LORCH  
Notre Dame Academy; Park Hills, Kentucky  
Major: Business Economics; Business Analytics, Psychology  
Co-Op: The Hershey Company; Luxottica (past); Amend Consulting (past); Great American Insurance Group (past); Vantos (past)  
Activities & Honors: Lindner Student Ambassadors—VP of Programming; UC Panhellenic Association—Recruitment Guide; Rho Lambda Women’s Greek Honorary; Alpha Kappa Omega Sorority; Financial Aid Committee; Lindner College of Business Outreach Director (past); Student Government—Elections Facilitations Committee (past); PMG Mentoring and Leadership Program (past)
**MICHHELL PHELPS**  
Ontario High School; Mansfield, Ohio  
Major(s): Marketing, International Business  
Co-Op: FRCH Design Worldwide; UKP—SpiceFire; Morgan Stanley  
Activities & Honors: Student Body President; Student Government Business Fellows Leadership Circle—Residential Advisor; Treasurer; Student Government Mr. Kharka 2015; Student Government—At Large Senator, First Year Leadership Program; Provost Student Advisory Board; Gentleman’s Quarterly Member; Sidal Hall Government—Multicultural Residence Committee Chairman; Ethnic Leaders Institute—Young Leader

**ROBERT M. BANKIN**  
St. Xavier High School; Cincinnati, Ohio  
Major: Finance, Marketing  
Co-Op: Procure E & Gamble; General Cable Corporation  
Activities & Honors: Sigma Alpha Epsilon Fraternity—Scholarship Chair, Judicial Board Member, Recruitment Committee; RallyCats—External Vice President; Cincinnati Dance Marathon—Corporate Fundraising Chair; Lindner Ambassadors—High School Shadow Program Chair; Lindner Student Action Team—Director of Technology; Sigma Alpha Epsilon True Gentleman Scholarship Recipient; Bearcat Buddies; Blue Jays Lacrosse Program—Assistant Coach

**SAMANTHA N. RISER**  
Seton High School; Cincinnati, Ohio  
Major(s): Accounting, Business Analytics  
Co-Op: The Kroger Co., Grant Thornton LLP, General Cable  
Activities & Honors: Dr. Joseph A. Siegel Named Cincinnati Presidential Scholar; Phi Alpha Beta Book Award Recipient; Dean’s List; Learning Assistance Center—Academic Coach; Rho Lambda Gamma Honorary; Chi Omega Fraternity—Executive Board Member, Recruitment Logistics Director, Treasurer (past); Social Director (past); Alumni Relations Chair (past); Student Alumni Council—Vice President of Alumni Affairs (past); Lindner Student Association—Co-Director of Lindner Outreach (past); University Honors Program; Give Kids the World Service Trip—Participant; Camp Restore New Orleans Service Trip—Organizer and Lead; WorkFest Alternative Spring Break to Rural Appalachia—Participant

**IMAN H. SAID**  
Walnut Hills High School; Cincinnati, Ohio  
Major(s): Industrial Management, International Business  
Co-Op: Toyota; Samsung  
Activities & Honors: Delta Sigma Pi Professional Fraternity—Vice President; Alumni Relations Chairs (past); Scholarships for Ashley—Recruiting Captain; Undergraduate Student Senate—Secretary; Undergraduate Student Cabinet—Marketing Director; Member of Bearcat Marching Bands (past); College Mentors for Kids (past); Junior Achievement Volunteer; New Brother of the Year Award (Delta Sigma Pi); Excellence in Leadership Award (Darwin T. Turner Scholars); University Honors Program

**ALEXANDER J. STAUTBERG**  
Elder High School; Cincinnati, Ohio  
Major(s): Accounting, Information Systems  
Co-Op: EY  
Activities & Honors: Sigma Alpha Epsilon Fraternity—Community Service Chairman, New Member Educator, Member Educator, Judicial Board, Scholarship Committee, Recruitment Committee; Alliance 4 Abilities—Member; UC IBD Group—Founding Member; UC Newman Club—Member; Unified 4 Uganda—Member; UC Miter Board—Member; Crohn’s Disease and ulcerative Colitis Mentor at Cincinnati Children’s Hospital; Crohns and Colitis Foundation of America—Volunteer; Our Lady of the Visitation Retreat—Leader; Cincinnati Scholar; Dean’s List

**LAURA M. ZENNI**  
Little Miami High School; Cincinnati, Ohio  
Major(s): Accounting, Business Analytics  
Co-Op: Delta Air Lines; Lueosta; The Brandery; Paycor; GE Aviation  
Activities & Honors: Kappa Kappa Gamma Sorority—Education Chairman (past); Academic Excellence At Large Representative (past); Relay for Life—Greek Life. Life Team Development Co-Chair (past); Alumni Recruitment Chair (past); University of Cincinnati Mock Trial (past); OAHG (past); Serve Beyond Cincinnati; Panhellenic Recruitment Guide (past); Students Consulting Nonprofit Organizations (past); Atlanta Community Food Bank

**ROBERT K. WELLINGTON**  
Summit Country Day School; Cincinnati, Ohio  
Major(s): Finance, Marketing, Real Estate  
Co-Op: Macy’s, Inc.  
Activities & Honors: ROAR Guides—Marketing Director; Student Government—First Year Leadership Program (past); Community Service Chair; Lindner Student Action Team—2020 Speaker Coordinator; Red and Black Bash—Finance Team; Bearcat Launchpad; Pi Kappa Alpha Fraternity—Philanthropy Chair; University Honors Program; Basketball Intramural; Soccer Intramural; Cincinnati Youth Collaborative—Mentor; Saturday Hops/Dribblethon Over the Rhine Basketball Program—Coach; KWF Foundation for LIVING with Breast Cancer—Chair (past); Board; Camp Karem—Counselor; University of Cincinnati Snowcats—Exec Team

**ERIC J. ZINS**  
IBC Capital Markets Scholar  
St. Xavier High School; Cincinnati, Ohio  
Major(s): Finance, Business Analytics  
Co-Op: Bahl & Gaynor Investment Counsel, Merrill Lynch  
Activities & Honors: Student Alumni Council—President, Vice President of Membership, Vice President of Communication, Hometown Rap Rally Chair; Sigma Alpha Epsilon Fraternity—Recruitment Chairman, Eminent Recorder (Secretary), Recruitment Committee, Judicial Affairs Board Member, Scholarship Committee; Lindner Investment Banking Club; Cincinnati Dance Marathon—Corporate Fundraising Director, Recruitment Director; Interfraternity Recruitment Team; Bearcat Buddies—Student Mentor; Cats on Deck—Student Mentor; Place Nursing Home Volunteer
KATIE ABRAHAM
Saint Ursula Academy; Cincinnati, Ohio
Major(s): Accounting
Co-Op: EY
Activities & Honors: Kappa Kappa Gamma Sorority—Registrar, Membership Committee, Organizational Committee; Chi Alpha Sigma (CAS); National Honor Society; Adopt-A-Class—Team Leader; Lindner Women in Business (past); Cincinnati Scholar; Christos P. Demakos Scholar; UCAAA Undergraduate Legacy Scholar

ZACH ALLABEN
La Salle High School; Cincinnati, Ohio
Major(s): Finance, Accounting
Co-Op: Deloitte, Nielsen, Two Pillars Capital
Activities & Honors: Sigma Chi Fraternity—President, Risk Manager, Scholarship Chairman, Judicial Board Representative, New Member Educator; Student Alumni Council; Lindner Ambassadors; Inner City Youth Opportunities—Volunteer Tutor; The Children's Theatre of Cincinnati—Volunteer; University Honors Program; Cincinnati Scholar

BRAD ARMSTRONG (Eagle-Richner Industries Scholar)
Conner High School; Hebron, Kentucky
Major(s): Marketing, Entrepreneurship
Co-Op: STACK Construction Technologies
Activities & Honors: Pi Kappa Phi Fraternity—Interfraternity Council, Risk Management Chairman, Housing Chairman; Cincinnati Scholar; Benefit of Hope Charity Event; Relay for Life

JACK BENDER
St. Xavier High School; Cincinnati, Ohio
Major(s): Finance and Marketing
Co-Op: Delta Air Lines, Luxottica, Cincinnati Children's Hospital Medical Center
Activities & Honors: Sigma Alpha Epsilon Fraternity—External Vice President, Scholarship Chairman (past); Interfraternity Council—Director of Community Service and Philanthropy, Judicial Board Member (past); Student Alumni Council—Red and Black Book Committee; Cats on Deck—Mentor, Bearcat Buddies—Tutor; Lindner Student Association; Forever Bears; University Honors Program; Cincinnati Scholarship Recipient; UC Alumni Scholarship Recipient; True Gentleman Scholarship Recipient

MADELINE BENNETT
Miami Hill High School; Cincinnati, Ohio
Major(s): Marketing and Business Analytics
Co-Op: P&G
Activities & Honors: Alpha Lambda Delta Honorary; National Society of Leadership and Success Honors, Deans List; Kappa Alpha Theta Sorority; UC on Deck; Lindner Women in Business; Cincinnati Intern Network Connection (CINC) Member; Project HEAL—Sponsorship Committee, Adopt-A-Class—Team Leader

KATIE CHUNG (Floyd Kingbail Memorial Scholarship)
Shawnee High School; Lima, Ohio
Major(s): Marketing
Co-Op: LPK, BAND/Wea; Samtec
Activities & Honors: Club Swimming, PACE leader, Campus Recreation Center Group Fitness Instructor, BearCATS, UC SCUBA Club, University Honors Program, Deans List. Past Involvement: Student-Athlete Support Service Intern, Bearcats Marketing Academy, Alpha Kappa Psi Professional Fraternity—Vice President of Alumni Relations, Judiciary Assistant; Club Swimming—Vice President of Operations; Bearcat Buddies; Student Government—First Year Leadership Program; Elections Facilitations Committee; Cats on Deck

JAY BRANNAN
St. Xavier High School; Cincinnati, Ohio
Major(s): Finance, Economics
Co-Op: Macquarie Group, Fort Washington Investment Advisors
Activities & Honors: Cincinnati University Scholar; University Honors Program; Sigma Alpha Epsilon—Member Educator, Community Service Chair; Lindner Investment Banking Club; Lindner Student Association—Cats on Deck; Director; UC Club Water Ski Team—Fundraising Chairman; Serve Beyond Cincinnati; Bearcat Buddies

SAM BURCHELL (Richard E. Thornburgh Scholar)
Covington Catholic High School; Park Hills, Kentucky
Major(s): Finance
Co-Op: Goldman Sachs, MayHIC Select Investments
Activities & Honors: Sigma Chi Fraternity—Recruitment Chairman, Derby Days (Philanthropy) Committee, Scholarship Committee; Student Government—First Year Leadership Program; Lindner Investment Banking Club; Inner City Youth Organization Tutoring—Volunteer; P&G Leadership Experience 2015; Dean's List; Sigma Alpha Epsilon—True Gentleman Scholarship Recipient

ELLIE FATHMAN (Clifford H. Coors Northside Bank Scholar)
Notre Dame Academy; Park Hills, Kentucky
Major(s): Finance, Real Estate
Co-Op: Snow Commerce, LLC; AMEND Consulting, Calibrity Solutions
Activities & Honors: Chi Omega Fraternity—Sisterhood Support Team, New Member Educator; Student Alumni Council—Vice President of Communications, Bearcats 101 Chairman; Cincinnati Intern Network Connection—Rally Squad Chairman; Student Government—First Year Leadership Program

JAY BRANNAN
St. Xavier High School; Cincinnati, Ohio
Major(s): Finance, Economics
Co-Op: Macquarie Group, Fort Washington Investment Advisors
Activities & Honors: Cincinnati University Scholar; University Honors Program; Sigma Alpha Epsilon—Member Educator, Community Service Chair; Lindner Investment Banking Club; Lindner Student Association—Cats on Deck; Director; UC Club Water Ski Team—Fundraising Chairman; Serve Beyond Cincinnati; Bearcat Buddies

SAM BURCHELL (Richard E. Thornburgh Scholar)
Covington Catholic High School; Park Hills, Kentucky
Major(s): Finance
Co-Op: Goldman Sachs, MayHIC Select Investments
Activities & Honors: Sigma Chi Fraternity—Recruitment Chairman, Derby Days (Philanthropy) Committee, Scholarship Committee; Student Government—First Year Leadership Program; Lindner Investment Banking Club; Inner City Youth Organization Tutoring—Volunteer; P&G Leadership Experience 2015; Dean’s List; Sigma Alpha Epsilon—True Gentleman Scholarship Recipient

ELLIE FATHMAN (Clifford H. Coors Northside Bank Scholar)
Notre Dame Academy; Park Hills, Kentucky
Major(s): Finance, Real Estate
Co-Op: Snow Commerce, LLC; AMEND Consulting, Calibrity Solutions
Activities & Honors: Chi Omega Fraternity—Sisterhood Support Team, New Member Educator; Student Alumni Council—Vice President of Communications, Bearcats 101 Chairman; Cincinnati Intern Network Connection—Rally Squad Chairman; Student Government—First Year Leadership Program

MADELINE GREYWE
Saint Ursula Academy; Cincinnati, Ohio
Major(s): Marketing
Co-Op: Nielsen Catalina Solutions, Colliers International; Ohio National Financial Services
